OFFICE OF PETITIONS

Applicant: Demitz et al.

Appl. No.: 10/511,122

International Filing Date: April 9, 2003

Title: HAIR CARE AGENTS CONTAINING PREGELATINIZED, CROSS-LINKED STARCH DERIVATIVES

Attorney Docket No.: 104035.283800

Pub. No.: US 2006/0039882 A1

Pub. Date: February 23, 2006

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on April 19, 2006, for the above-identified application

The request is DISMISSED.

Applicant requests that the application be republished because the patent application publication contains material errors, as application published with the wrong abstract, as it does not include abstract filed with the amendment on June 20, 2005 and the publication includes drawings not filed with the application.

37 CFR 1.221 (b) is applicable "only when the Office makes a material mistake which is apparent from Office records.... Any request for a corrected publication or revised patent application publication other than provided as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable." A material mistake must affect the public's ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The instant request identifies Office errors in the publication, however the errors are not material Office error under 37 CFR 1.221(b). The errors are not material mistakes because the technical disclosure and the claims are understandable, as the information is also included summary of the invention and else where in the specification and since the application does not include drawings, none were omitted. The errors do not affect the public's ability to appreciate the technical disclosure of the patent application publication, or determine the scope of the patent application

<sup>1</sup>Changes to Implement Eighteen-Month Publication of Patent Applications, 65 FR 57023, 57038 (Sept. 20, 2000), 1239, Off. Gaz. Pat. Office Notices 63, 75 (Oct. 10, 2000) (final rule).

publication or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

It is noted that the abstract filed by preliminary amendment on June 20, 2005 does not comply with 37 CFR 1.121, as the abstract does not start on a separate page.

The applicant is advised that a "request for republication of an application previously published" may be filed under 37 CFR 1.221(a). Such a request for republication "must include a copy of the application compliance with the Office's electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in § 1.17(i)." If the request for republication does not comply with the electronic filing system requirements, the republication will not take place and the publication fee set forth in § 1.18(d) will be refunded. The processing fee will be retained.

Any request for republication under 37 CFR 1.221(a), must be submitted via the EFS system as a "Pre-Grant Publication" and questions or request for reconsideration of the decision, should be addressed as follows:

By mail to: Mail Stop PGPUB  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, Va. 22313-1450
